Our Company

**We are
reimagining
medicine**

The Novartis Mission and Vision

- Our **mission** is to discover new ways to improve and extend people`s lives.
- Our **vision** is to be a trusted leader in changing the practice of medicine.

Our Strategy

We believe Novartis is well prepared for a world with a growing, aging population and continuously evolving healthcare needs. We have a clear mission, focused strategy and strong culture, all of which we expect will support the creation of value over the long term for our company, our shareholders and society.

Our strategy is to use science-based innovation to deliver better patient outcomes in growing areas of healthcare.

- **Science-based innovation**
- **Better patient outcomes**
- **Growing areas of healthcare**

Senior Investigator, Oncology

Questions to the panels

- Tell your story in terms of your career trajectory and your current job description. They like to hear what your typical day is like.
- Describe any jobs in your area that might be different than the three of yours for people with a PhD.
- Come up with some suggestions on how to prepare yourself for a career in your field prior to applying.
- Suggest the best steps to take to get a job in your field.
