

RWJMS MD/PhD PROGRAM ROTATION FORM

Prior to starting your rotation the student must obtain signatures from both the Professor in whose laboratory they will be rotating as well as the member of the advisory committee from the host institution. Students rotating at Molecular Biology, Princeton University must bring a copy of this form and meet with the Manager of Student Services, Room 119 Lewis Thomas Lab, to arrange for building access, PU ID and parking. The completed form is to be submitted to Tina Marottoli in Room R-102, RWJMS Piscataway. If there are any questions contact Dr. James Millonig, Program Director (CABM building, room 238, millonig@cabm.rutgers.edu). Once student rotations are complete each student will rank order their laboratory choices and final selections will be facilitated by the advisory committee. Students will enter the laboratory following the end of the second year of medical school. The PhD stipend, tuition and health benefits will be the responsibility of the research mentor. If there are questions concerning the laboratory rotation feel free to contact any of the Liaisons.
