- ✓ Direct the discussion
- ✓ Focus on a topic

Matching products to needs :

- ✓ Understand the science
- ✓ Buzz / Key words
- ✓ Application

Marketing

Presenter: Elaine Lou, Global Product Manager

Career path

Ph.D. in Pharmacology
May 2019

Postdoc
Jun 2019-Jan 2020

Technical Account Manager
Jul 2020-Dec 2022

**Global product
Manager**
Jan 2023- Present

Next Role?

Careel Goal

TAM

Account Management: support Sales to build relationship with customers and close deals.

- Analyze customer's request
- Provide technical and product advice to customers inquiry
- Handle quote and order process
- Provide update on customer's projects
- Resolve customer's trouble shooting and complains with the service.

VS

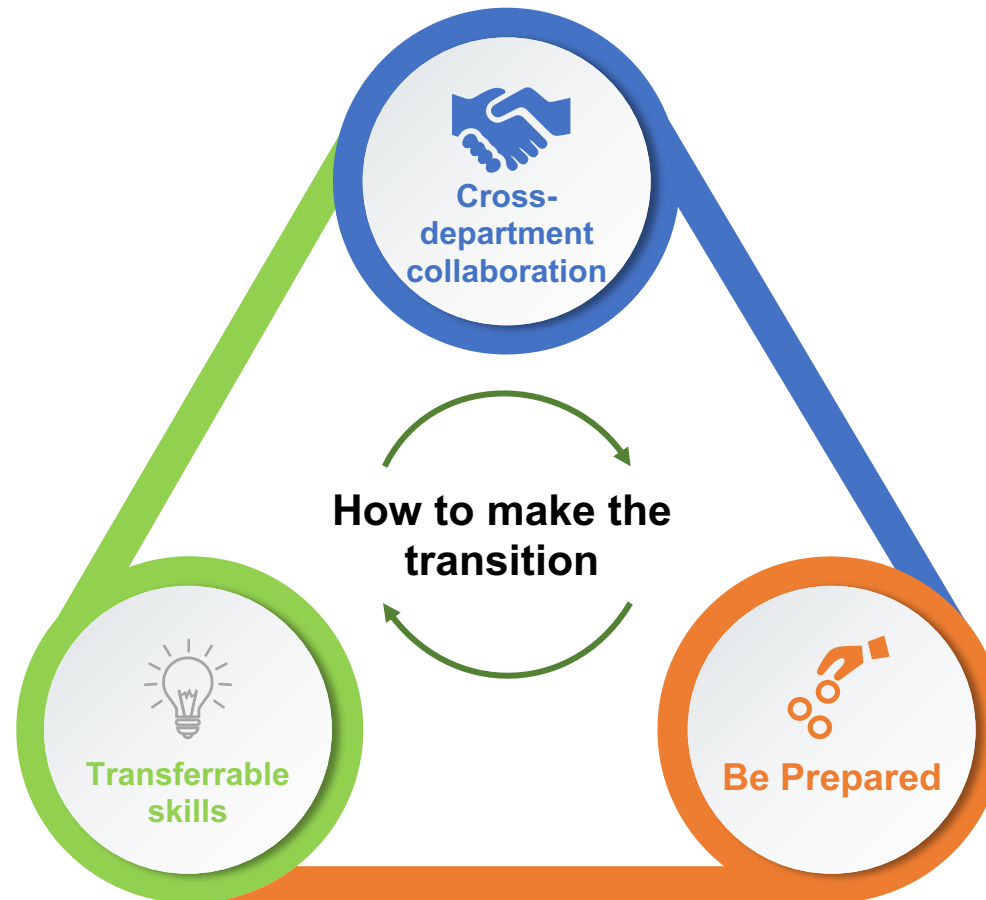

PM

Product management: make sure the product/service offered to the market is as successful as possible.

- Understand customer's pain point, define product requirements.
- Develop product roadmaps, and New Product Initiatives.
- Promotional campaigns and materials for new product lines.
- Monitor financial performance and make adjustments as necessary to achieve financial goal.
- Deep understanding of the competitive landscape and market dynamics.

How to Make the Transition

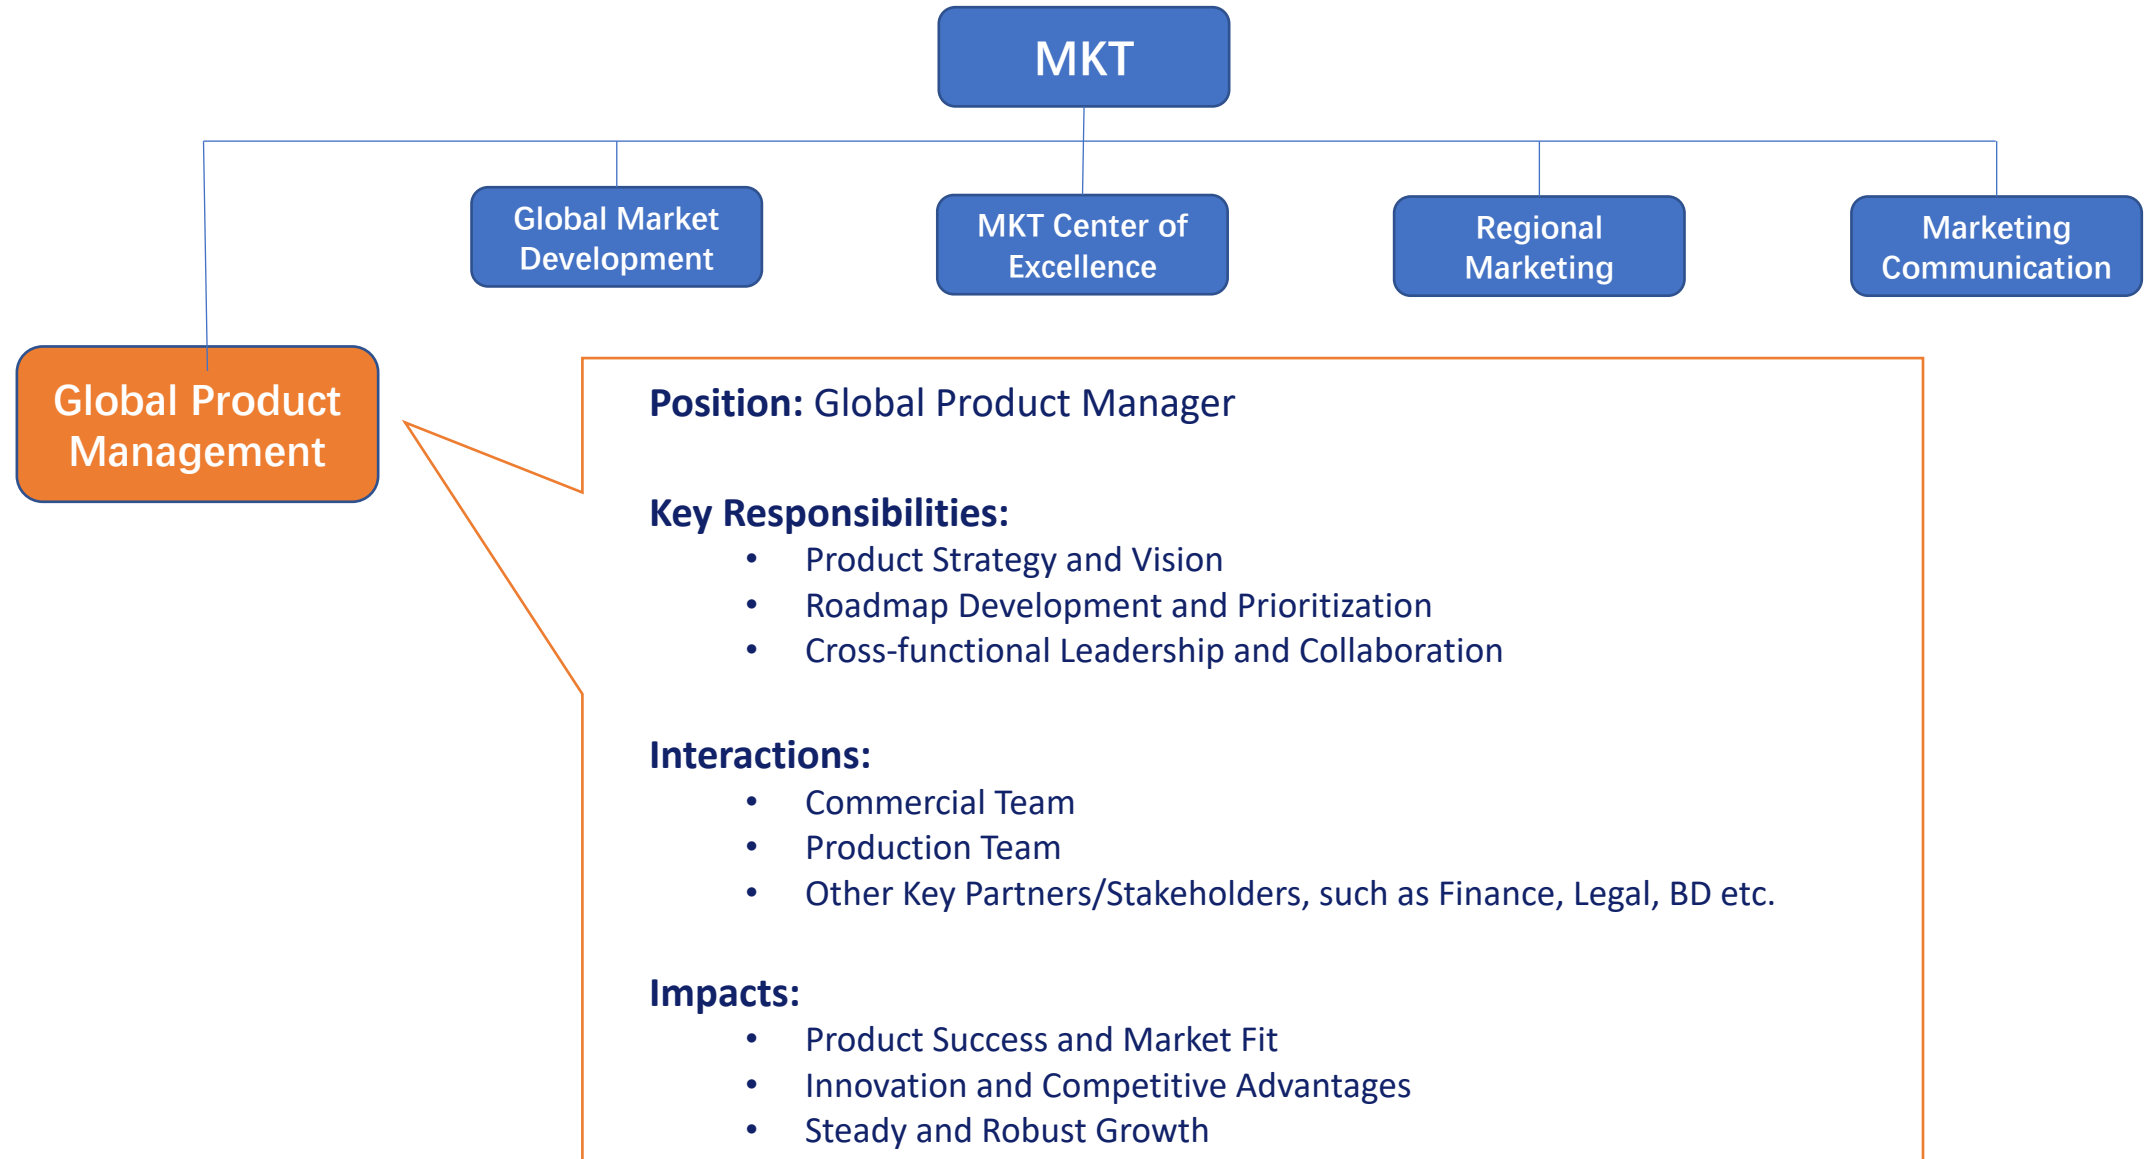

Support cross-department activities to show your teamwork skills and potential.

Build transferrable skills to ensure success in the new position.

Learn the knowledge for the new position to show your motivation.

My Role Within the Company Structure

Technical Account Manager (TAM)

Presenter: Jessica Chotiner, Sr. Technical Account Manager, RSBU Northeast

My PhD experience 2017-2022

- University of Pennsylvania- School of Medicine
- Lab of Jeremy Wang
- Reproductive biology and meiosis lab

MODELING INFERTILITY: SINGLE GENE MUTATIONS AND CONSEQUENCES FOR
GERM CELL DEVELOPMENT

Jessica Y. Chotiner

A DISSERTATION

in

Cell and Molecular Biology

Presented to the Faculties of the University of Pennsylvania

in

Partial Fulfillment of the Requirements for the

Degree of Doctor of Philosophy

2022

Transition to GenScript

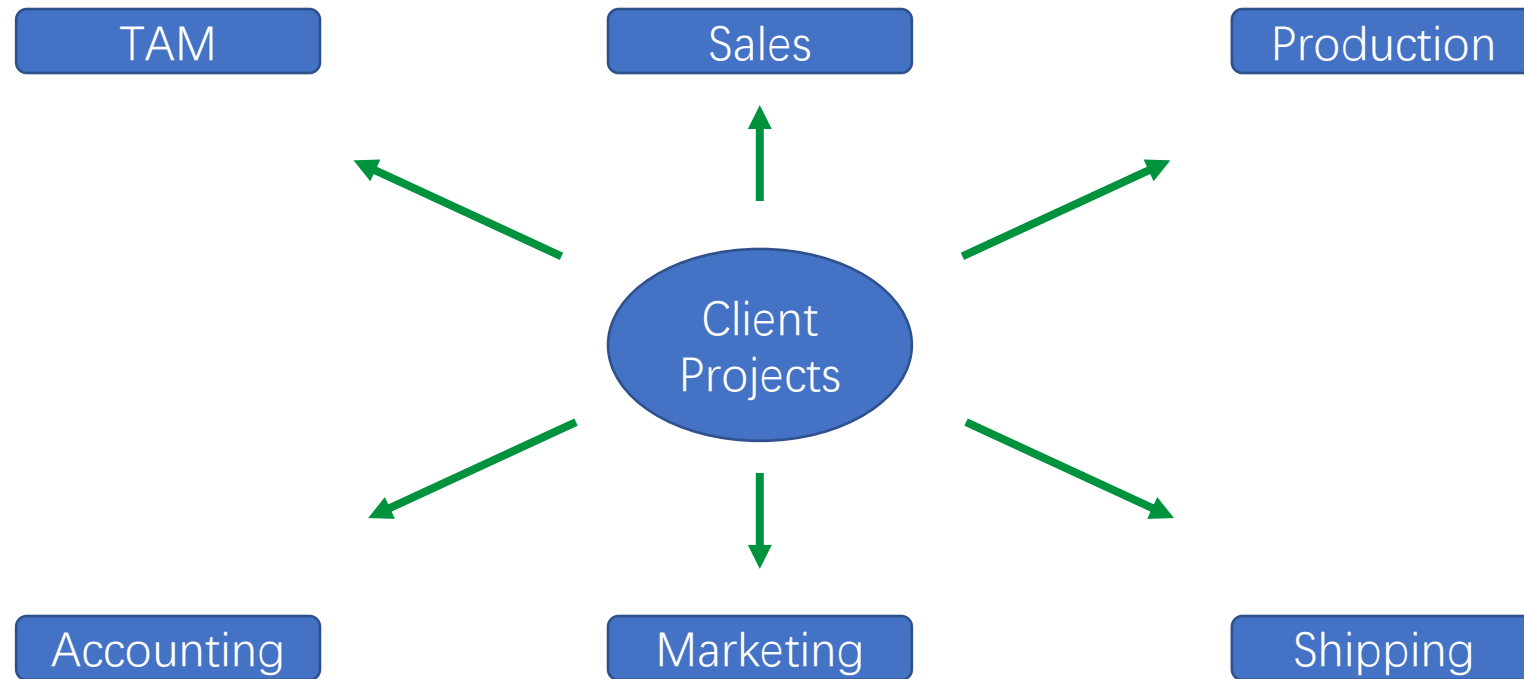

- Wanted to get away from the bench but stay in science
- Interviewed for a ~variety~ of jobs
- Took 4 months off

Actual image me
looking for a job

Role of Technical Account Manager

- Technical/scientific side of the sales team

Advice for finding an industry role

- Do as many informational interviews as you can!
 - Alumni
 - LinkedIn mutual connections
- Do be creative in how sell the skills you acquired in your PhD
 - Writing, presentation skills, problem solving, mentorship
- Don't focus too much on finding the “perfect” job
 - Leaving academia can already be difficult
 - The job you take likely won't be your job forever

Technical Account Manager (TAM)

Presenter: Nancy Gong, Sr. Technical Account Manager, Key Accounts Group

CANADA

Cornell University
BS Food Science

Rutgers University
PhD Food Science
2017-2024

Yearly Intern
LCMS-small molecules
2022-2023

Summer Intern
Protein Engineering
2023 summer

Tech Account Manager
Molecular Biology
2023 October

Responsibilities as a TAM

- Design cloning strategies of plasmid for the customers
- Generate quotes for the customers
- Communicate with the customers, sales, and the production team
- Learning new service lines: mRNAs, CRISPR, Antibody

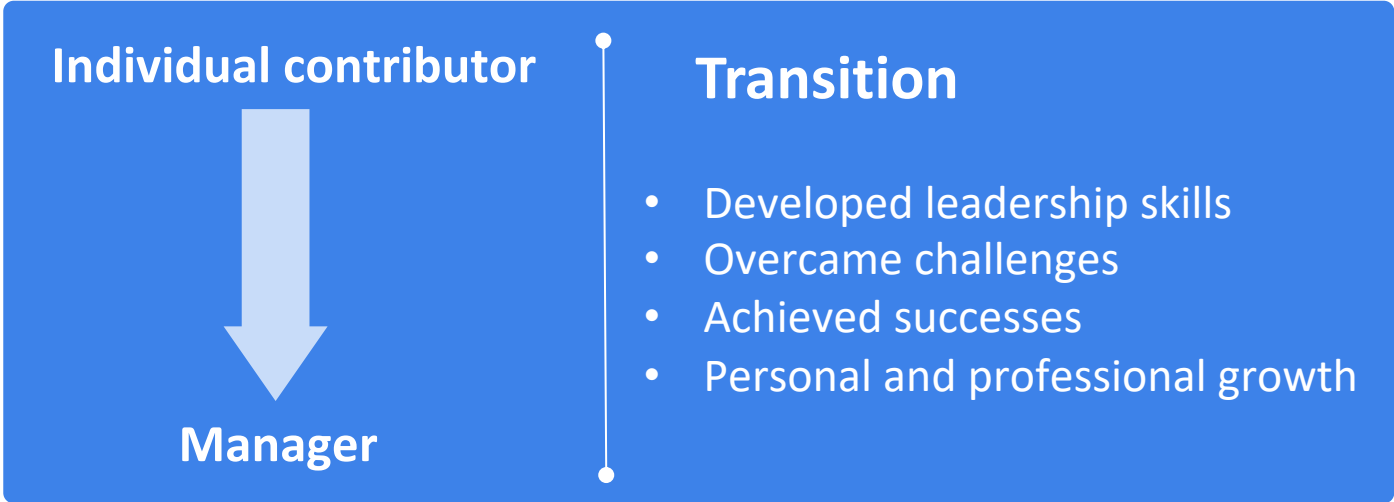

Job Hunting Tips

- Internships are good, but not necessary
 - Return offers are optimal; If not, it helps you expand your network
- Tailor your LinkedIn profile
 - My hiring manager DM me on LinkedIn
- Expand your network
 - iJOBS, friends, forum, etc.
- Manage your stress

Commercial Excellence Center (CEC)

Presenter: Ying Zhang, Manager of Commercial Training Consultant Team

My Career Path from Rutgers to GenScript

- ✓ **Transitioning from academic research to industry relevance.**
- ✓ **Lessons from the journey: How academic skills translate to industry success.**
- ✓ **Practical advice for PhDs looking to make their mark in the corporate world.**

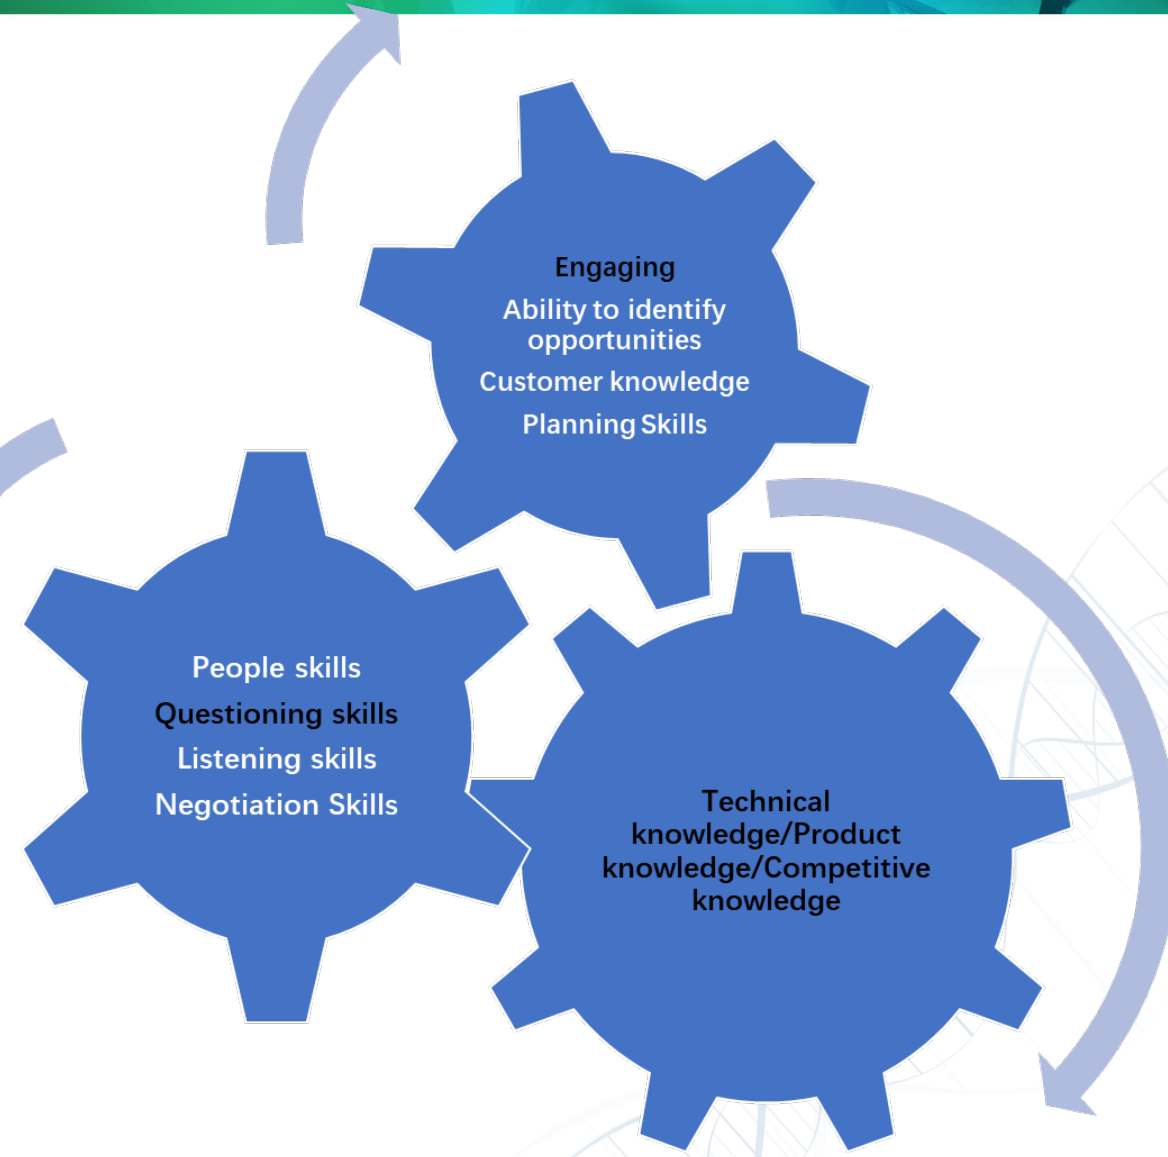

Training Team: Establish and Operate Effective Training Systems

CEC	A strategic partner Cultivate growth mindset	Establish training system Develop training platforms	Training Operation Monitor training on business growth
Commercial team	Learning =working Embrace changes	Be CEC's customer/partner Trainer/Training content	Leadership buy-in from top down Maximize manager's drive
MKT		Integrate Service training	
HR	Advocate Build a learning culture	Efficient training/ learning platforms	Brand Incentive systems

We need you!

- **Accountability:**
 - ✓ Never leave the open end unattended for more than 1 business day
 - ✓ Be precise and accurate about what we can and what we cannot
- **Innovation:**
 - ✓ Be dynamic, explore the potential customers
 - ✓ Identify the pain points and propose solutions
- **Teamwork:**
 - ✓ Closely working with TAM, SAM and PM in the team
 - ✓ Convey the feedbacks from clients to the Marketing department.
- **Customer First:**
 - ✓ Listen, collect feedback and improve
 - ✓ Understand and predict the needs of customers
 - ✓ Meet or surpass the expectations of customers
