Marisa Dolled-Filhart, Ph.D. is an experienced leader in drug development and precision medicine, currently serving as Global Team Lead at Daiichi Sankyo leading oncology drug development teams. She was previously VP of Translational Research at Bristol Myers Squibb (BMS), focusing on biomarkers for oncology trials. Marisa also held biomarker and diagnostic roles at Merck spanning R&D, project management, regulatory, commercial and medical affairs, including as scientific lead for the first FDA-approved companion diagnostic for immuno-oncology. Her prior roles included strategy and operations roles in biotech and the CRO industry. Marisa received the 2024 HBA Luminary Award for BMS for leadership and mentorship. She received a B.A. from Cornell University and a Ph.D. in Genetics from Yale (laboratory of David Rimm, MD, Ph.D.).
