iJOBS Careers Panel: Project Management

October 22, 2025

3:00 PM

Yung Chan, MS

Lab Manager & PMP-certified Project Manager

Applechem

yungcsu@hotmail.com

Yung Chan is an R&D Lab Manager and PMP-certified Project Manager with nearly a decade of experience bridging science and business in the ingredients side of the FMCG industry. She leads product development across skincare, sun care, and color cosmetics, guiding projects from the lab bench to market launch. While formally a Project Manager, Yung often manages multiple projects at once, coordinating cross-functional teams and strategic initiatives to keep milestones on track. She excels at turning scientific uncertainty into evidence-based strategies, balancing experimentation, regulatory compliance, and collaboration to deliver innovative products, especially in fast-paced, small-company environments.

Yung holds an M.S. in Chemistry from UNC-Chapel Hill and a Master of Business and Science in Chemical Engineering from Rutgers, along with dual bachelor's degrees in Biochemistry and Nutritional Science from Rutgers. This unique blend of technical depth and business insight enables her to navigate complex product lifecycles effectively.

Outside of work, Yung enjoys reading, traveling, and seeking out cultural experiences in museums and beyond.

Olajompo (Jompo) Moloye-Olabisi, Ph.D.

Site Lead

Johnson and Johnson

OMoloye@its.jnj.com

Olajompo (Jompo) Moloye-Olabisi is a Site lead at Johnson and Johnson Innovative Medicine – Supply Chain supporting External Manufacturing. She started her career at Johnson and Johnson in 2008 as a Scientist in Research and development at Ethicon (MedTech)

In 2015, Jompo was accepted in a development program that allowed her to work in the pharmaceutical sector and cross function into supply chain. In 2017, Jompo

returned to Ethicon and started her journey in Ethicon Supply Chain as a Principal engineer supporting Manufacturing Engineering. In 2021, Jompo returned to Innovative Medicine Supply Chain as Site lead (Virtual General Manager) supporting External Manufacturing. Jompo has a Ph.D. in Biomedical Engineering from the University of Florida, master's degree in biomedical engineering - Biomaterials from University of South Florida and a bachelor's degree in chemical engineering from Florida State University via FAMU/FSU college of Engineering. Jompo has a certificate in Rutgers for a Mini-MBA in Supply Chain.

Jompo is passionate about mentoring. Jompo enjoys exercising, reading, gardening, traveling and spending time with family.
